

Tersus Consultancy CASE STUDY

Travis Perkins

Contract Start: 2007. Retained on successive tenders in 2013 and 2018

Contract End: 2021

Contract Value: up to £200k per annum

Brief Description:

Asbestos management surveys and legionella remediation services through-out the entire Travis Perkins portfolio.

This is a UK nationwide contract including Northern Ireland and in addition we conduct works within properties in the Republic of Ireland.

This contract covers the provision of:

- **Surveying**
- **Sampling & Bulk Analysis**
- **Re-inspection**
- **Air monitoring / 4-stage clearance**
- **Legionella Remediation Services**

Benefits to Client:

Travis Perkins plc operates 20+ businesses across the UK; including Wickes, Tool Station, Benchmark and Tile Giant.

As Travis Perkins portfolio has expanded across brands we survey and provide the asbestos management report and plan. Currently we reinspect 400 to 500 properties per annum.

We also provide Legionella remediation services with a programme of circa 500 properties. Working in accordance to recommended practice as agreed with their Primary authority we conduct tank cleaning, by-passing, cleaning and disinfecting. We also ensure all works are updated on their 'Vision' software system.
